

The Shaded Dome  
**Exhibition**  
 1.800 m<sup>2</sup> - 12.000 m<sup>2</sup>

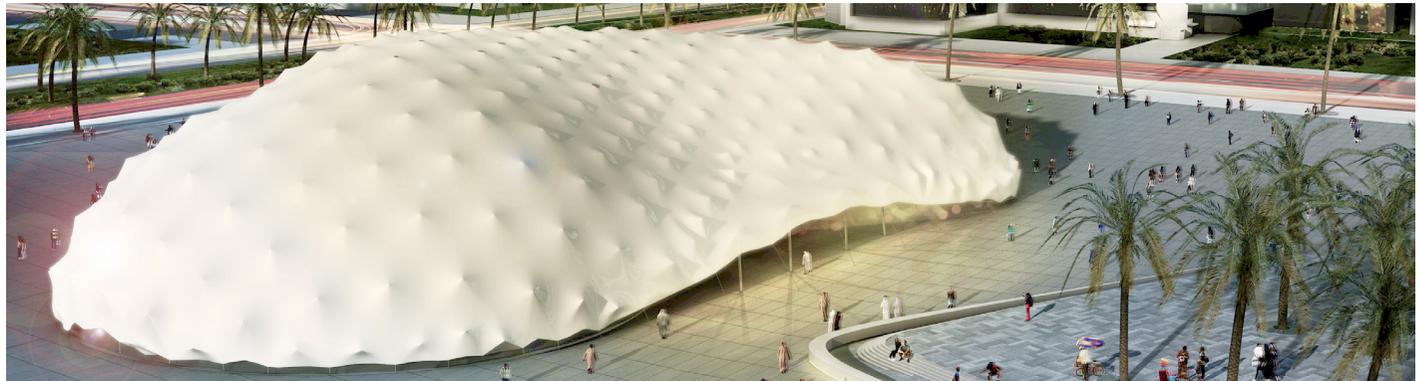

**'Unprecedented flexibility in size and shape'**

The Shaded Dome is an outstanding venue for exhibitions. It can be built in a matter of days, and can be used for both temporary as well as permanent events. The air dome is column-free, and with sizes ranging between 1.000m<sup>2</sup> and 5.000m<sup>2</sup>, any type of exhibition can be accommodated. Inside the dome, climate-controlled conditions ensure a comfortable air temperature and humidity level, creating a pleasant atmosphere for visitors and employees. For fragile and sensitive artwork, additional climate provisions can be added that keep the artwork within strict climate boundaries. Need to accommodate a valuable museum collection, a unique art gallery or a state-of-the-art exhibition? The Shaded Dome makes it all possible.

<b>Customized shape</b>	Oval - Round - Complex
<b>Controlled conditions</b>	Light - Air - Temperature
<b>Large size &amp; free-span</b>	1.000m <sup>2</sup> - 3.000m <sup>2</sup> -5.000m <sup>2</sup>
<b>Experience</b>	Colour - Material - Lighting

Exploded view - SD Exhibition
